

Rush To You

Miss Benny

Do you remember the meeting
Out by the faded graffiti
Behind the back of the circus liquor past six
Cause I just remember you thinking
This world we knew had ended
How could you know that the worst
Was yet to begin

But if you can be patient
Maybe I could get kind
Cause I overcorrected and turned into ice
So give me some time

Please just hear me
I would never say
I'll go easy
I can't ask you to
Help me, melt me
I'm still damaged and blue
If I rush to you
There's just so much to lose

Lately I'm caught in the ambient
Made peace with playing my part in it
Cause I always feel like a resident in the back of the shelf
So how can it be you're familiar?
When I don't know what of me is left
And the option I thought I needed was time to myself

Please just hear me
I would never say
I'll go easy
I can't ask you to
Help me, melt me
I'm still damaged and blue
If I rush to you
There's just so much to lose

There's so many things I can't put into words but I'm trying
And you know, whatever you feel I'm feeling too
But if I rush to you

Please just hear me
I would never say
I'll go easy
I can't ask you to
Help me, melt me
I'm still damaged and blue
If I rush to you
There's just so much to lose

There's so many things I can't put into words but I'm trying
I'm trying
