

Fentanyl

Miss Fortune

Embedded fear within me
I lived a lie, then I watched it come alive
At night
The cemetery burns the butterflies
When you're dyin', I'm dyin'
Did we get what we deserve this time?
Admitting how no friend of yours is mine

There's no trophy for just waiting around
For your life to pass you by
Your addiction to diamonds
Stunning and timeless
You really want this ride?
(This ride)

Fentanyl
Feeling so good should never be so wrong
Stuck in some deep dark place I don't belong
We never guessed that we could be so strong
Fentanyl

When you're dying, I'm dying
When I'm calling you hide it
When you've fallen asleep for the last time
I'll crash down like a landslide

There's no trophy for just waiting around
For your life to pass you by
Your addiction to diamonds
So stunning and timeless
You really want this ride?

Fentanyl
Feeling so good should never be so wrong
Stuck in some deep dark place I don't belong
We never guessed that we could be so strong
After all

Embedded fear within me
I lived a lie then I watched it come alive
There's not a way I can get this off my mind
And by design, I can't give it up, I've tried
But you've forsaken me

There's no trophy for just waiting around

For your life to pass you by
Your addiction to diamonds
Stunning and timeless
You really want this ride?
