Survive

Miss Fortune

Scandalous sins I've tried to wage war with
Pull back the curtain, you'll see what's within
Aware of the things I've done for attention
When I'm self-destructing, you don't even care
Don't notice how my life's become a nightmare
You just sit back and judge my old indiscretions

Bring me to life
I will survive
Nothing will stop me this time
I'll make things right if I have to die
I'll win this fight

Bring me to life
I will survive
Nothing will stop me this time
I'll make things right if I have to die;
I will survive

Saving yourself is always a battle
But search inside yourself; and you'll see what's within
In spite of the things you learned in your dark times

When you're self-destructing, know I'll always care
And be there when you need me;
Not a moment to spare
So don't feel so ashamed of your own self expression

Bring me to life
I will survive
Nothing will stop me this time
I'll make things right if I have to die
I'll win this fight

Bring me to life
I will survive
Nothing will stop me this time
I'll make things right if I have to die;
I will survive

Falling on ourselves
Defying the values
That got us this far
Don't let go

In times where there's trouble
Through torrential rainfall
You'll weather the storm, swear to you
Scandalous sins I've tried to wage war with

Bring me to life
I will survive
Nothing will stop me this time
I'll make things right if I have to die
I'll win this fight

Bring me to life

```
I will survive
Nothing will stop me this time
I'll make things right if I have to die;
I will survive
```

```
I will survive
Nothing will stop me this time
I'll make things right if I have to die;
I will survive
```
