

# Too Cool To Be Cordial

Miss Fortune

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders  
But you keep fuckin' me over

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders  
But you keep fuckin' me over

If this is really the catalyst  
Then maybe this is where things come crashing down  
You're triggering my anxiety  
A mitigated disaster this cold town

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders  
But you keep fucking me over

One more step to just keep breathing  
The universe is standing in my way  
More failed words you just aren't hearing  
Are finally what's driving me insane

So if you're really a masochist  
What goes around will always come back around  
You'll never be my antagonist  
But thanks for turning my whole life upside down

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders  
But you keep fuckin' me over

(Woah oh-oh)  
If you're too cool to be cordial  
(Woah oh-oh)  
Got no sympathy for you  
(Woah oh-oh)  
I put the world on my shoulders  
(Woah oh-oh)  
But you keep fucking me over

One more step to just keep breathing  
The universe is standing in my way  
More failed words you just aren't hearing  
Are finally what's driving me insane

Rumors that you keep believing  
I finally washed my sins away  
I can't stop you girl from leaving  
Idealizing all the things you say

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders

But you keep fuckin' me over and over

If this is really the catalyst  
Then maybe this is where things come crashing down  
You're triggering my anxiety  
A mitigated disaster this cold town

If you're too cool to be cordial  
Got no sympathy for you  
I put the world on my shoulders  
But you keep fucking me over

(Woah oh-oh)

If you're too cool to be cordial  
(Woah oh-oh)  
Got no sympathy for you  
(Woah oh-oh)  
I put the world on my shoulders  
(Woah oh-oh)  
But you keep fucking me over

Fuck
