

Metalhead

Miss Kittin

My head of metal is digging my own hole
I don't like it like that who likes to fall
let's take a hammer and destroy everything around
Once the rage out still things aren't the way we want

The pressure always of never being good enough
Fff... off I am running on my metal horse
A knight in the night there's only one thing I wanna do
Dancing in the dark when no one is talking to you

Let's take a record play it loud and fool around
Sweat it out and get lost into the sound
Let's take a record play it loud and fool around
Sweat it out and get lost into the sound

Metalhead
