

## Dreaming

## Missing Persons

Laying down to dream at night  
Pray the Lord to hold me tight  
Play with angels dance in the light  
Let nothing happen in your sight

I see your face I see it every time I dream  
All this time I'm waiting waiting for you

A world encrypted that's full of sin  
No empathy for, for fallen men

I see your face I see it every time I dream  
All this time I'm waiting waiting for you

Deja vu been here before  
Leave the ghost at the door  
Dream out loud I'm lost in a crowd  
It's you I adore  
It's you I adore  
It's you I adore

I see your face I see it every time I dream  
All this time I'm waiting waiting for you  
I see your face I see it every time I dream  
All this time I'm waiting waiting for you
