

I Wanna Fight And You Know It

MISSIO

People tell me that there's fishes in the sea
But I've only met the crazy bitches in the sea
Guess I ain't been livin' right
When it comes to the ladies

People tell me that there's fishes in the sea
But I've only met the crazy bitches in the sea
Guess I ain't been livin' right
When it comes to the ladies

My head feels too loud
Like a monsoon in the summertime
You can't drag me down
Like a chest underwater with no gold

I wanna' fight and you know it
I got my fists up tonight and you know it

People tell me that I may be the disease
Like I'm the crazy bitches in the sea
Maybe all of 'em are right
When it comes to being shady

People tell me that I may be the disease
Like I'm the crazy bitches in the sea
Maybe all of 'em are right
When it comes to being shady

My head feels too loud
Like a monsoon in the summertime
You can't drag me down
Like a beast underwater with no soul

I wanna' fight and you know it
I got my fists up tonight and you know it
I wanna' fight and you know it
I got my fists up tonight and you know it

Be cool lil' playa
Don't forget the rules and get loose
Whatcha' say huh?

Be cool lil' playa
Slow it down and do it like they do in Himalaya

Slow it down and do it like they do in Himalaya

I wanna' fight and you know it
I got my fists up tonight and you know it
I wanna' fight and you know it
I got my fists up tonight and you know it

Like a monsoon in the summertime
