

# Monsters

MISSIO

I know you, inside and out  
Yes I know you, we met in my dreams  
You can't fool me, your heart is too kind  
Think you're a monster, you must know now

My heart is black as can be  
Your heart is pray to the mission  
My body hangs from the rope  
Your body leans gently into me

You're not a monster, I'm not a monster  
But we have monsters inside of us  
You're not a monster, I'm not a monster  
But we have monsters inside of us

I am tired of endless decay  
You're tired of being alone  
One day I'll kiss you good night  
One day you will sing me to death

You're not a monster, I'm not a monster  
But we have monsters inside of us  
You're not a monster, I'm not a monster  
But we have monsters inside of us  
You're not a monster, I'm not a monster  
But we have monsters inside of us  
You're not a monster, I'm not a monster  
But we have monsters inside of us

You're not a monster, I'm not a monster  
But we have monsters inside of us  
You're not a monster, I'm not a monster  
But we have monsters inside
