

Take that chain off of your neck, I know that thing threw you in debt  
Stop pretending, start ascending, lay your ego down to rest  
Signed with Sony, ASOS only, gave me money like RingTing  
Feeling so good I could run Beijing

Slap the wrists off all the haters, doing me that's nada new  
Try to get it, hit & quit it, if you can't just let me through  
Own the passion, satisfaction, making money like RingTing  
Feeling so good I could run Beijing

RingTing, RingTing, RingTing, RingTing  
That's the sound of my fists on the enemy  
RingTing, RingTing, RingTing, RingTing  
Every heart, every soul left bleeding

Take me to a world where we can all be empathetic souls  
Stop the stealing, double dealing, need more healing fuck it though  
Low key lonely, super phony, still stuntin' like RingTing  
Feeling so good I could run Beijing

Self respect is hard to test when I am spun out like the rest  
I'm still a man, who gives a damn, about being the fucking best  
Rep the shades, prep my trades, money moving like RingTing  
Feeling so good I could run Beijing
