MISSIO

That's why they call me Temple Priest mothafucka  
That's why they call me Temple Priest mothafucka

Man, you know I got some questions  
But you say you know the truth  
I'm not done learning all my lessons  
Ignorance is no excuse

Everything you say I'm missing  
Think I'm destined for the dirt?  
It's like I'm guilty by omission  
I guess maybe I'll convert

And I'm like Yeah yeah  
And you're like Nah nah  
And I'm like HELL YEAH  
And I'm like

That's why they call me Temple Priest mothafucka  
That's why they call me Temple Priest mothafucka

Why you don't got any questions?  
How you know that this is real?  
I am feeling such oppression  
You can't tell me how to feel

Why you think I'm at the bottom?  
Why you think I'm off the path?  
Cause I used to love the bottle?  
Or is it the tattoos on my back?

And I'm like Yeah yeah  
And you're like Nah nah  
And I'm like HELL YEAH  
And I'm like

That's why they call me Temple Priest mothafucka  
That's why they call me Temple Priest mothafucka

Paul Wall baby  
Paul Wall  
Paul Wall baby

Eh, judge thee not lest ye be judged  
Don't mind me I'm just doing my drugs  
I don't bar none and I don't hold no grudge  
But I'm all real homie  
I do not budge

They tell ya it's for your soul  
They just playing a role  
Cause when it's all said and done  
It's comes down to control

All the lying and deception  
Been taking its toll  
But I'm ten toes down

I will not fold

I get manipulated every time I'm in a bad place  
They straight lie to my face  
And then ask for grace

The phone calls stop coming  
When I talk my case  
Then they tell me that I'm wrong  
If I question my faith

I gotta look past the messenger  
And hear the message  
I gotta be my best self  
And get all my blessings

So let me light up this blunt  
And if they hate, so what?  
I'm doing me  
I'm not concerned too much

Sitting on the mountaintop  
Well above the clouds  
I don't feel like I'm about to drop

Hanging in the balance  
I don't harbor any malice  
I done been up in the slums  
I done been up in the palace

I'm infinity  
Sacred geometry  
Living simply  
Universe aligned with my spirit  
I feel its symmetry

I remember vividly  
The Devil tried to finish me  
Nature got my back  
So he couldn't fuck with the synergy

I break bread with the lost  
Make joy by your pain  
Found peace in a war  
I made do in the rain

Star shining in night  
My light true as the day  
I don't believe in the hype  
I'm only human I say

Oh you lost  
Well I'm lost too  
And some of us are murdered with the knowledge  
But we all fools

What's the point of winning  
While we living  
When we all lose  
When it's said and done  
In the ending when we all screwed

And I'm like Yeah yeah

And you're like Nah nah  
And I'm like HELL YEAH  
And I'm like
