

Run So Fast

Missy Higgins

So here I am
Treading water again
This is not what I had planned
When I saw this day

We run so fast
With the wind on our tails
And the hope in our young hearts
Yeah we run so fast
Thought we could not
We just could not fail

And until now I've been bold
I've laughed at fire
I've danced through the unknown
Oh, but lately things have shaken me

Some paint this land
For I want to believe
There's a hole in a dead end
You might let me see

This dark is strong
And I've been trying to move
But the inside is square one
It won't let me through

And until now I've been bold
I've laughed at fire
I've danced through the unknown
Oh, but lately things have shaken me

Do we ever have control?
I swear I thought I knew where rivers flowed
Oh, but lately things have shaken me
