

## You Only Hide

Missy Higgins

So I keep watch and you keep breaking  
Breaking formation to become someone else  
And your eyes become corridors, where I wander  
With a candle, calling out to you

And you only hide...Because you know I'll find you

You say you just wanna feel  
The way you used to feel  
The way you should feel  
And I wander, I wander through  
The lost city of you

And you only hide...Because you know I'll find you  
And you only hide because you know I'll find you...
