Keep the light, keep the light, keep the light on  
So you know, so you know my love's not gone  
If I pour, if I pour enough to drink  
I can feel, I can feel you next to me  
Everywhere I go  
I see your ghost, every alley, every road  
I feel you close, not enough to hold

And all I do, I see you  
I thought I saw you at a show, but no  
So I dance alone

I'm watching you fade  
Hoping you stay  
I'm watching you fade  
Begging you please don't go away  
I can't have you, don't leave me  
I'll have you, in between  
I'll have you, in between, I'll have you (Please don't fade away)

Go to sleep, go to sleep, to see your face  
I wake up, I wake up, don't see a trace  
I have tried, I have tried to erase you  
But that's a crime, that's a crime I just can't do  
Everywhere I go  
I see your ghost, every alley, every road  
I feel you close, not enough to hold

And all I do, I see you  
I thought I saw you at a show, but no  
So I dance alone

I'm watching you fade  
Hoping you stay  
I'm watching you fade  
Begging you please don't go away  
I can't have you, don't leave me  
I'll have you, in between  
I'll have you, in between, I'll have you (Please don't fade away)

I can't have you, don't leave me  
I'll have you, in between  
I'll have you, in between  
I'll have you, in between  
I'm watching you fade  
Hoping you stay  
I'm watching you fade  
Begging you please don't go away

I can't have you, don't leave me  
I'll have you, in between  
I'll have you, in between (Please don't fade)  
I'll have you, in be-
