

Hey

Turn to waters blue
Colored in a way I never knew
Swimming in a paradise with you
But your face is still my favorite view
I got the big, big feels (Big feels)
Kiss me to know you're real (You're real)
You're not a ninety-nine
One hundred all the time

Terrified to start again
And you pull me in
Pull me in

I see you
Doing all of the things you do
Showing off with the way you move
I should give you a medal
Gold on another level
Let me be your

Stay running 'round my mind
Done so many laps, aren't you tired?
Things that you do, I can't define
You leave me so tongue-tied
And I got the big, big feels (Big feels)
Kiss me to know you're real (You're real)
You're not a ninety-nine
You're one hundred all the time

Terrified to start again
And you pull me in
Pull me in

I see you
Doing all of the things you do
Showing off with the way you move
I should give you a medal
Gold on another level
Let me be your

Muse
(Wanna be, wanna be, wanna be your)

Muse
(Wanna be, wanna be, wanna be your)

Muse
I should give you a medal
Gold on another level
(Let me be your)

Let's go on a ride
I'll be your shotgun
Let's go everywhere under the sun
Sounds crazy, but I think you're the one

I see you
Doing all of the things you do

Showing off with the way you move
I should give you a medal
Gold on another level
Let me be your
Muse
(Wanna be, wanna be, wanna be your)
Muse
(Wanna be, wanna be, wanna be your)
Muse
I should give you a medal
Gold on another level
Let me be your
Let me be your
