Pull me into the game
Sucker punch to the face
Borrowed time I can't waste
Bad habits are hard to change
So hard to change
So hard to

Write it out on the page
Take a walk, medicate
Sadness is quiet rage
Good habits are hard to make
So hard to make
So hard to

Watching from the sidelines
Wishing I was on the other side

Watching from the sidelines (Watching from the)
Wishing I was on the other side
Watching from the sidelines (Watching from the)
Wishing I was on the other side

Other side

And I know, and I know
I've been here before
But I keep coming back
Always looking for more
Of the same disfunction
Reenact destruction

I don't wanna be cynical (Cynical)
Can't tell if it's the chemicals (Chemicals)
The imbalance is so typical
Is so typical
Need a miracle

Watching from the sidelines (Watching from the)
Wishing I was on the other side
Watching from the sidelines (Watching from the)
Wishing I was on the other side

Other side

What you want is what you have
Don't look forward and don't look back
What you want is what you have
Don't look forward and don't look back (Sidelines)
Little house, lemon tree (What you want is what you have)
I got everything I need (Don't look forward and don't look back)
Picket fence the irony (What you want is what you have)
I got everything I need

Watching from the sidelines (Watching from the)
Wishing I was on the other side

Watching from the sidelines (Watching from the)
Wishing I was on the other side (Yeah)
Watching from the sidelines (Watching from the)
Wishing I was on the other side
Watching from the sidelines (Watching from the)
Wishing I was on the other sidec
