

I turn up my speakers
So I can drown my thoughts just a little bit quicker
Dancing barefoot in the dead of winter
So I can numb this heart that's full of splinters
They say time heals
All wounds but these clocks are at a standstill
And I'm counting every second that you're not here
But only in my dreams do you appear

Am I allowed to lay down my smile,
And be bitter just for a while?

Don't keep pulling me under, we were meant to stay afloat
I see all the embers, they've not yet lost all their glow
Could you try to take a look into my eyes?
And tell me why, oh, why, why, why?
Why, oh, why, why, why?
Why, oh, why?

I close all the windows
Draw the curtains hoping that the sun knows
All I see is you when the day glows
Reminding me that you are just a shadow
When I wake
For a split second in time my heart does not ache
Thinking you'll be next to me then I shake
To see an empty bed and all over I break

Am I allowed to lay down my smile,
And be bitter just for a while?

Don't keep pulling me under, we were meant to stay afloat
I see all the embers, they've not yet lost all their glow
Could you try to take a look into my eyes?
And tell me why, oh, why, why, why?
Why, oh, why, why, why?
Why, oh, why?

I shoulda known when you were grinding your teeth (I shoulda known)
That you were hiding your feelings from me (Oh-oh-oh)
I shoulda known when you were tossing in your sleep (I shoulda known) (Oh-oh-oh)
That you were hiding your feelings from me

Don't pull me under, we were meant to stay afloat
I see the embers, they've not yet lost all their glow
Could you try to take a look into my eyes?
Don't go, keep pulling me under, we were meant to stay afloat
I see all the embers, they've not yet lost all their glow
Could you try to take a look into my eyes?
And tell me why, oh, why, why, why?
Why, oh, why, why, why?
