

## Come as Close as You Want

Misty Edwards

Come as close as You want  
Consume this heart that longs to burn  
I know Your fire can hurt  
But I would be worse here without You

For I was made to dwell with You  
And how I ache until I do

Holy God, Take my heart  
Purge with flame and truth  
A holy heart is all I want  
That I may live with You

Come and take all these chains  
That get in the way of what You want  
And as I stand in the flame  
Still I will say,
