

Put Your Heart In Me

Misty Edwards

When you cry, I want to cry with you
When you laugh, let me feel joy
When you move, I want to move with you
When you're still, keep my feet on the ground

For without you I can do nothing
To be with you is my greatest dream
To be without you I would have nothing
So keep me near you now and always

Show me what you are doing
I want to be near you as your friend
Tell me your deepest secrets
I want to know you, put your heart in me

When you pray, I want to pray with you
When you heal, lord use my hands
When moved with compassion, turn within me
When seasons change, let me in on your plan
For you Spirit lives within me
And your heartbeat He will unveil

Your very mind has been placed within me
So clear the gray and let me enter in
Show me what you're doing
I want to be near you as a friend
Tell me your deepest secrets
I want to know you, put your heart in me

Show me what you're doing
I want to be near you as your friend
Tell me your deepest secrets
I want to know you, put your heart in me
I want to know you, put your heart in me
I want to love you, put your heart in me
Let me hear your heartbeat, let me hear what you feel
Let me hear your heartbeat, let me hear what you feel
