

No Fixed Abode

Mitch James

Is there anyone else but me?
Walked the plank and kicked my feet
And I'm drowning here
Drowning in the words you speak
Drowning in this drink, I've peaked
And it's downhill from here
Need to get out of here
These four walls are turning me crazy
I think I might lose it
But if the door is closed and the water's rising
You're the missing puzzle piece to solve this

Saturated
I can't breathe
Overhead
I can't see
Stranded in these waters alone
Look around and all I see
Is empty space, it's misty
Searching for a way to get home
But where is home
No fixed abode
No fixed abode

Crazy times that we live in
Dollar and the pound make the world go round

And we still choose to accept it
I'm not waiting for another day
Well I can't, I can't
We're just looking for the chance to say
That we all, we all feel this way

Like we're
Saturated
We can't breathe
Overhead
We can't see
Stranded in these waters alone
Look around and all we see
Is empty space, it's misty
Searching for a way to get home
But where is home
No fixed abode
No fixed abode

Like we're
Saturated
We can't breathe
Overhead
We can't see
Stranded in these waters alone
Look around and all we see
Is empty space, it's misty
Searching for a way to get home
But where is home
No fixed abode
