Spiderweb

Mitch James

```
I wasn't even looking
I just walked in
Don't know if it's good
Don't know if I should
But I'm all in
It only took a second
Then I lost it
Watching how you move
Maybe I'm a fool
But I'm fallin'

Oh I can't believe it
I've been dreaming of this feeling
I'm having trouble breathing
But you're the air I needed
Tell me that you feel it
Cos baby all I see is
You when I close my eyes

Got you stuck in my head
Like I walked through a spider web
Don't think that I could get rid of
Get rid of ya
The way you spin in that dress
Impossible to forget
I'm wrapped up now
I can't live can't live without ya

You're in every corner
Take up the spaces
Even if I tried
I know that I'd find
I can't escape it

Oh I can't believe it
I've been dreaming of this feeling
I'm having trouble breathing
But you're the air I needed
Tell me that you feel it
Cos baby all I see is
You when I close my eyes

Got you stuck in my head
Like I walked through a spider web
Don't think that I could get rid of
Get rid of ya
The way you spin in that dress
Impossible to forget
I'm wrapped up now
I can't live can't live without ya

Tangled up in you
I can't shake you loose
Don't even want to

Tangled up in you
I can't shake you loose
```

Don't even want to

Got you stuck in my head
Like I walked through a spider web
Don't think that I could get rid of
Get rid of ya
The way you spin in that dress
Impossible to forget
I'm wrapped up now
I can't live can't live without ya

Tangled up in you
I can't shake you loose
Don't even want to

Tangled up in you

Got you stuck in my head
Like I walked through a spider web
Don't think that I could get rid of
Get rid of ya
