

those were the days

Mitch James

We had the world in our sights
We built it up from foundation
So when I see you at night
I can't resist your temptations

You say that you want more
Then you get bored
Remember when we'd talk til the morning babe?

Those were the days we thought never would end
We'd sing and we'd dance until the morning came in
It felt like we were lost, but we were working it out
Those were the days we'd be nothing without
We'd stay up and talk forever
Right into the night
Got lost in the moment
Drawn into the lights
Those were the days
Those were the days

You're always in then you're out
But I'm the one that's left in pieces
I miss the fire by your couch
I'm sitting looking at you speechless

You say that you want more
Then you get bored
Remember making love in the morning babe?

Those were the days we thought never would end
We'd sing and we'd dance until the morning came in
It felt like we were lost, but we were working it out
Those were the days we'd be nothing without
We'd stay up and talk forever
Right into the night
Got lost in the moment
Drawn into the lights
Those were the days
Those were the days

I miss the part when you'd pull me closer
Forget it all, yeah we'll start it over again
Where is the girl I loved last October?
I've been hoping, searching, praying

Those were the days we thought never would end
We'd sing and we'd dance until the morning came in
It felt like we were lost, but we were working it out
Those were the days we'd be nothing without
We'd stay up and talk forever
Right into the night
Got lost in the moment
Drawn into the lights
Those were the days
Those were the days
