Empty

Mitchel Musso

I opened my eyes
I sat up in bed
I'm thinking about this life
And all those things you said
I know that I messed things up last night
I opened my door
And see my surprise
I could see so much love
Mixed with fear in your eyes
You said you'd been worried for me all night
And then you wrapped your arms so tight around my neck
And then we ran to your car... you said
"Baby we ain't comin' back
I was alone her but you found the way to me
It took me so long but I think I'm starting to see
That there's so much more to life... and this much I know is true
That I'm empty her and all I want is you
Yeah! Cause I'm empty her and all I want is you
And when I was sick...
Strapped to my bed
All of these images were rushing through my head
All my thoughts filtered back to you
'Cause you were the one...who held my hand
Who picked me up when I was face down in the sand
I think that I own my life for you
And then you wrapped your arms so tight around my neck
And then we ran to your car... you said
"Baby we ain't comin' back
I was alone her but you found the way to me
It took me so long but I think I'm starting to see
That there's so much more to life... and this much I know is true
That I'm empty her and all I want is you
Yeah! Cause I'm empty her and all I want is you
I was alone you found me
And made my spirit burn
You gave me so much love
Expecting nothing in return
How could I do anything
Before I grab a hold of you
Before I grab a hold of you
To say
I was alone her but you found the way to me
It took me so long but I think I'm starting to see
That there's so much more to life... and this much I know is true
That I'm empty her and all I want is you
Yeah! Cause I'm empty her and all I want is you
Yeah...'cause I'm empty her and all I want, all I want is you
'cause I'm empty her and all I want, all I want is you
Yeah...'cause I'm empty her and all I want is you
