

# PARANOID

**Mitchel Musso**

How do we get up, get up every morning?  
When every night is rough, every day is boring  
All these things are tough  
When you're not there, I'm falling  
I'm sorry, it's harder without you  
Thinking I wouldn't erupt  
I've been feeling out it  
All these feelings got me fucked  
I've been thinking 'bout it  
And I didn't wanna settle  
I've been living in this hell  
I've been learning 'bout myself  
I've been putting out but

This shit right here got me blaming myself  
And I can't understand it right now  
We push and we pull and it's holding us back  
And I can't understand it right now

Because I'm paranoid  
Paranoid  
I've been seeing you with every boy  
Every boy  
Every situation I'll avoid  
I'll avoid  
I never feel I'm enough  
I never feel I'm enough

How do we give up what we already started?  
No one hits the mark when you over shot it  
Life is hard enough when you're broken hearted  
I'm sorry, I'm guarded without you  
Thinking I wouldn't erupt  
I've been feeling out it  
All these feelings got me fucked  
I've been thinking 'bout it  
And I didn't wanna settle  
I've been living in this hell  
I've been learning 'bout myself  
I've been putting out but

This shit right here got me blaming myself  
And I can't understand it right now!  
We push and we pull and it's holding us back  
And I can't understand it right now!

Because I'm paranoid  
Paranoid  
I've been seeing you with every boy  
Every boy  
Every situation I'll avoid  
I'll avoid  
I never feel I'm enough  
I never feel I'm enough

Because it's harder without you  
But I never amount to

The man that you want me to be  
I'm guarded without you  
And I'm not about to  
Pretend that it's all on me

I'm so paranoid  
Paranoid!  
You know I'm dealing with it every night  
Atta boy!  
Think you're out here falling out of line  
Every time I get this feeling in myself  
I've been patient in this hell

You're keepin' me up  
You're keepin' me up!  
All of my love was never enough!  
I'm not allowed to tell anyone right now  
I bottle up the fact you're holding me back  
Happen so fast I got too attached  
Fighting myself I'm under attack  
Oh yeah!
