

Bigger Mistakes

Mitchell Tenpenny

I sold my first guitar 'cause
I needed some gas money
I wrecked that truck on 65
My friend Joe Diffie gave me
A bottle of whiskey, wish we
Drank it together before he died

I don't make big things outta small things anymore
Just like the night you walked out that door

I've had so much more to lose
Hate to say it, baby, but you're old news
I don't even think about you when I've had a few
So get over yourself
I've made bigger mistakes than you
Oh, bigger mistakes than you

Yeah, I spent some late nights
Out with the boys, drinking
'Stead of holding the one I loved
Yeah, I shoulda bought a ring
Yeah, she was my everything
But I never told her near enough

I bet you think I'm talking 'bout you but I ain't
No, you ain't the one that got away

I've had so much more to lose
Hate to say it, baby, but you're old news
I don't even think about you when I've had a few
So get over yourself
I've made bigger mistakes than you
I've made bigger mistakes

Crazy how you always think the whole world spins around you
That I can't live without you
That every song's about you, oh

I've had so much more to lose
So much more to lose
Hate to say it, baby, but you're old news
You're still hanging on
I don't even think about you when I've had a few
So get over yourself
I've made bigger mistakes than you
Bigger mistakes than you
Oh, bigger mistakes than you

So much bigger than you
Oh, I've made bigger mistakes than you
