Fall Back in It

Mitchell Tenpenny

I know you know I've been drinking
And I know you know what that means
We said last time that time was the last time
We love to say things we don't mean

Baby, you're that got to have it, ain't no way to kick the habit
I don't want to go another night without you
Have another drink about you, I just want you

Baby, come over and fuck me up
'Cause I need you bad tonight
Nothing but messed up sheets on us
Girl, we do one thing right
Like you never left your side of the bed
You wanna fall back in it
Yeah, I know it wasn't love, but whatever it was
I wanna fall back in it
With you, with you, with you
Wanna fall back in it
With you, with you

Help me help my hands remember
Every curve I can't forget
I know it isn't really love we're making
But you're the one I wanna make it with

So, baby, come over and fuck me up
'Cause I need you bad tonight
Nothing but messed up sheets on us
Girl, we do one thing right
Like you never left your side of the bed
You wanna fall back in it
Yeah, I know it wasn't love, but whatever it was
I wanna fall back in it
With you, with you, with you
Wanna fall back in it
With you, with you

Baby, come over and fuck me up
I wanna fall back

Baby, come over and fuck me up
'Cause I need you bad tonight
Nothing but messed up sheets on us
Girl, we do one thing right
Like you never left your side of the bed
You wanna fall back in it
Yeah, I know it wasn't love, but whatever it was
I wanna fall back in it
With you, with you, with you
Wanna fall back in it
With you, with you

Wanna fall back in it
With you, with you
Wanna fall back in it
With you, with you
