

## Good Place

Mitchell Tenpenny

I'm not in a good place, but I'm in this bar  
So, I'm in a good place for a broken heart

Blame it on "I'm too selfish"  
Blame it on "Won't grow up"  
Blame it on "You're too jealous"  
But you can't blame me getting this drunk

So, somebody pour 'em strong  
Leave me the hell alone  
'Til somebody drives me home

I'm not in a good place in the neon dark  
Since we broke up in your broke-down car  
I'm a midtown mess and it's all on me  
Trying to miss you less with the more I drink  
I can't take it, but I can take another shot, baby  
I'm not in a good place, but I'm in this bar  
So, I'm in a good place for a broken heart

Baby, I wish I hated you  
Wish tequila made you disappear  
And it hurts, you don't hurt like I do  
And I wish I didn't wish you were here

I'm not in a good place in the neon dark  
Since we broke up in your broke-down car  
I'm a midtown mess and it's all on me  
Trying to miss you less with the more I drink  
I can't take it, but I can take another shot, baby  
I'm not in a good place, but I'm in this bar  
So, I'm in a good place for a broken heart

So, I'm in a good place for a broken heart

Somebody pour 'em strong  
Somebody take my phone  
And leave me the hell alone  
Leave me the hell alone

I'm not in a good place in the neon dark  
Since we broke up in your broke-down car  
I'm a midtown mess and it's all on me  
Trying to miss you less with the more I drink  
I can't take it, but I can take another shot, baby  
I'm not in a good place, but I'm in this bar  
So, I'm in a good place for a broken heart
