

Good Thing

Mitchell Tenpenny

I'm a little bit reckless
I'm a little bit part of the problem
Yeah, a little hardheaded
Oh, miles away from flawless
But you're like a rock when the waves come
And you're like the moon when the day's done
You are everything I need

It's a good thing you love me
A good thing you care
A good thing you trust me when I'm not there
It's a good thing you hold me, when I hold you
Even when you shouldn't, baby, you still do
It's a good thing you love me
Good thing you love me

There's no telling where I'd be if you weren't mine
Can't imagine life on the front line
Without you I'd be lost on the first night
And even when we fight, we're on the same side
You stole my heart and I don't want it back

It's a good thing you love me
A good thing you care
A good thing you trust me when I'm not there
It's a good thing you hold me when I hold you
Even when you shouldn't, baby, you still do
It's a good thing you love me
Good thing you love me

You're like a rock when the waves come
You're like the moon when the day's done
You stole my heart and I don't want it back

It's a good thing you love me
A good thing you care
A good thing you trust me when I'm not there
It's a good thing you hold me when I hold you
Even when you shouldn't, baby, you still do
It's a good thing you love me
A good thing you love me
Oh, a good thing you love me
Good thing you love me
