

Laid Back

Mitchell Tenpenny

Laid back

Laid back, smoke up a chill in a zig-zag
Working my way through a six pack
I guess that I'll be putting in overtime
Live it up a little longer
Keep it going all night
'Cause I know that we're never gonna get today back
So get laid back

Who needs a plan when the sun is shining
Who gives damn when the beers on ice
Every time is the perfect timing
And it's time we go all out tonight
It ain't hard just to taking it easy
Getting gone, if you need me
Sorry son, now if you wanna call me tomorrow
Then give me, give me a holler
But right now I'm busy getting laid back, laid back
Laid back, way back
Laid back, way back

Laid back, if you're looking for me I'll be right here
Soaking up the rays in a lawn chair, don't care
'Cause right now I ain't going nowhere

Who needs a plan when the sun is shining
Who gives damn when the beers on ice
Every time is the perfect timing
And it's time we go all out tonight
It ain't hard just taking it easy
Getting gone, if you need me
Sorry son, now if you wanna call me tomorrow
Then give me, give me a holler
But right now I'm busy getting laid back, laid back

Who needs a plan when the sun is shining
Who gives damn when the beers on ice
Every time is the perfect timing
And it's time we go all out tonight
It ain't hard just taking it easy
Getting gone, if you need me
Sorry son, now if you wanna call me tomorrow
Then give me, give me a holler
But right now I'm busy getting laid back, laid back
