

Neon Christmas

Mitchell Tenpenny

Yeah, we planned to catch a plane but the snow's coming down
It's a two-day delay so the wheels are on the ground
For a while, for a while, for a while

Yeah, it sure is a shame that we can't see our folks
And I won't get to hear your daddy's jingle bell jokes
For a while, for a while, for a while
But thank God, and girl smile

'Cause there's a bar down the street that's calling our name
Get some holiday spirits, baby what do you say

We have a neon Christmas, baby don't you know
Yeah, as long as we're together it don't matter where we go
If a cold beer, corner booth, or dive bar stool's on your wish
list
We can have a neon Christmas

They've hung lights in the windows
Got some Jingle Bell Rocks
With some standard rotation
On an old jukebox

Let's dance, let's dance
What a chance
Give me your hand

Oh, let's have a neon Christmas, baby don't you know
Yeah, as long as we're together it don't matter where we go
If a cold beer, corner booth, or dive bar stool's on your wish
list
We can have a neon Christmas

We can have us a night we'll look back on someday
It might not be how we planned it but girl that's okay
It's okay

We'll have a neon Christmas, baby don't you know
Yeah, as long as we're together it don't matter where we go
If a cold beer, corner booth, or dive bar stool's on your wish
list
We can have a neon Christmas
We can have a neon Christmas
Oh, baby don't you know
