

## Same Moon

Mitchell Tenpenny

This old guitar has done a lot for me  
It's shown me lots of places I never could've dreamed  
But there's a rocky side to rock-and-roll  
Yeah, it takes you everywhere  
Everywhere but home

If I'm in Mississippi and you're in Tennessee  
You can still be with me if we keep

Looking at the same moon  
Could be a thousand miles apart  
Yeah, but it feels like our hearts are in the same room  
If you're lonely where you are  
I ain't far when we're looking at the same moon  
Ooh, yeah

The silver lining to these nights alone  
We got some making up to do when I finally make it home  
I'll show you how bad I missed you  
I'll pull you in close and kiss you  
But 'til then, I'll have to picture you

Looking at the same moon  
Could be a thousand miles apart  
Yeah, but it feels like our hearts are in the same room  
If you're lonely where you are  
I ain't far when we're looking at the same moon

I'm looking at, you're looking at, we're looking at  
I'm looking at, you're looking at

If I'm in Mississippi and you're in Tennessee  
You can still be with me if we keep

Looking at the same moon  
Could be a thousand miles apart  
Yeah, but it feels like our hearts are in the same room  
Oh, if you're lonely where you are  
I ain't far when we're looking at the same moon  
I'm looking at, you're looking at, we're looking at  
We're looking at the same moon
