

Save Me

Mitchell Tenpenny

Sleep till dawn
Trapped in these four walls
Only one light on
Enough to keep me warm

Feel my hands around your waist
Miss the way your body tastes
Bury myself in the sand
So you can only kiss my face

I would lose all of my senses
There's no sleep I'm restless
Baby without, without you
I'd be drowning
Drowning in the deep end
I need you to reach in
Cause only you can, you can
Save me
Only you can, oh

Break my heart
Cause it stopped our start
Now I'm all bruised up
Cause I fell so hard, oh

I would lose all of my senses
There's no sleep I'm restless
Baby without, without you
I'd be drowning
Drowning in the deep end
I need you to reach in
Cause only you can
You can

Bring me back from the bottom
Pull me away from the bottle
Make me believe in heaven

I would lose all of my senses
There's no sleep I'm restless
Baby without, without you
I'd be drowning
Drowning in the deep end
I need you to reach in
Cause only you can
You can
Save me

Only you can
Only you can, oh
Save Me
Only you can, oh
