

## Snow Angels

Mitchell Tenpenny

We met playing dirty Santa  
Now we're picking out a Christmas tree  
Two stockings on the mantle  
One for you, and one for me  
Finding out who's nice or naughty  
I can be your candy cane  
Let's skip that sweater party  
Give you gifts that Santa can't  
I don't wanna wait no longer baby  
Tonight feels right

Baby it's too cold outside  
We could still take a sleigh ride  
And not have to leave this bed  
Start a fire in here instead  
Maybe we can pour some wine  
There ain't no closing time  
Get the sheets all tangled  
We can make snow angels  
I'm never leaving this room  
I'm never leaving this room

Kinda makes you wanna kiss somebody  
Stay inside and just let it snow  
Baby tell me why we waitin'  
We don't need no mistletoe  
What you say we lay on down  
Can't wait to unwrap you now

Baby it's too cold outside  
We could still take a sleigh ride  
And not have to leave this bed  
Start a fire in here instead  
Maybe we can pour some wine  
There ain't no closing time  
Get the sheets all tangled  
We can make snow angels  
I'm never leaving this room  
I'm never leaving this room

What you say we lay on down  
Can't wait to unwrap you now

Baby it's too cold outside  
We could still take a sleigh ride  
And not have to leave this bed  
Start a fire in here instead  
Maybe we can pour some wine  
There ain't no closing time  
Get the sheets all tangled  
We can make snow angels  
I'm never leaving this room  
I'm never leaving this room

Baby I never wanna leave this room  
You know when I think about you and snow angels  
Laying down in that bed, messing it up a little bit

We don't need to go outside and lay in the snow  
To make a snow angel
