

Started Stoppin'

Mitchell Tenpenny

You quit loving me seven months ago
Last night I slept all night, that's one night in a row
No, it, it ain't been easy, but I'm doing the best that I can

So, you can't call me up the way that you just did
Like you don't need a thing, like we're just two old friends
And I know, you think I'm ready, but girl, the way you wreck me
, I ain't

I just started stoppin' loving you
I'm one foot out the hell you put me through
But I still got some moving on to do
'Cause I just started stoppin' loving you

I saw that post you made, I don't know who he is
Can you just let me think it isn't what it is? No, no
So take it easy on me, take a picture looking lonely one night

I just started stoppin' loving you
I'm one foot out the hell you put me through
But I still got some moving on to do
I just started stoppin' loving you

I just stopped passing your house, I take the long way home
I just stopped not going out, I just stopped checking my phone
Take it easy, take it easy on me

I just started stoppin' loving you
And I just started
Got one foot out the hell you put me through
Put me through
But I still got some moving on to do
Really, I do
'Cause I just started stoppin' loving you
It kinda hurts to say it, but it's true
You just started seeing someone new
And I just started stoppin' loving you
Loving you
And I just started stoppin' loving you
