

## Alive x Starbright (Between Broken Live Edit)

MitiS

Sometimes it feels like I don't belong here  
Roots can't take hold 'cause I didn't fit  
Can't see the way out through all my tears  
I know they always say to hold on for better days  
I didn't think that I could make it  
Came close to givin' up every day  
The fact I'm here is kind of amazing  
Funny how destiny brought out the best of me

So darling, why don't we get high on love and let it in?  
Feel the flood of everything  
Oh, of everything tonight  
Surrender 'til it's all too much  
I'm givin' in to the rush  
No, I've never been  
Oh, I've never been so alive

Oh woah, Starbright, can you shine a light?  
I need you by my side  
It's dark out there tonight (So alive)  
Oh woah, Starbright, someday, somewhere far  
When we're not worlds apart  
I'll hold you in my arms  
But until I can see you again, I'm wishing on stars...

I wanna live, I wanna be right now  
I wanna scream 'til my lungs give out  
Oh, this is what it means to be alive  
And I wish that time would just slow down  
I can't get enough of life right now  
Oh, this is what it means to be alive

I wanna live, I wanna be right now  
I wanna scream 'til my lungs give out  
Oh, this is what it means to be alive  
And I wish that time would just slow down  
I can't get enough of life right now  
Oh, this is what it means to be alive

Yeah, I'm finally feeling something  
Yeah, I finally feel alive  
'Cause I know a day is coming  
When the sun will rise  
Made something out of nothing  
Found something deep inside  
And I'll always keep on running  
That's what it means to be alive
