

# Break The Silence

MitiS

Home, my heart is homeless  
I'm made out of stones  
Since you've been gone  
Hope, I'm wasted and hopeless  
I drink for the soulless  
Shell and one

For you, my love  
Is it true or not?  
I need to hear you, my love  
It's up to you

We were drifters, dancing through the dark  
Then the whole world went silent around me  
I followed sirens, followed all the sparks  
And the whole world was silent around me

For you, my love  
Is it true or not?  
I need to hear you, my love  
It's up to you  
To break the silence

Break the silence  
It's up to you

Time, I'm trapped and I'm timeless  
Unreachable kind of  
State of mind  
The end, I follow the endless  
Path of pretenders  
I'm not fine

For you, my love  
Is it true or not?  
I need to hear you, my love  
It's up to you

We were drifters, dancing through the dark  
Then the whole world went silent around me  
I followed sirens, followed all the sparks  
And the whole world was silent around me

For you, my love  
Is it true or not?  
I need to hear you, my love  
It's up to you  
To break the silence

Break the silence  
Break the silence
