By My Side

MitiS

I get lost sometimes
Thinking of your smile
Things were good when you were here
Although then, I couldn't see

I pushed you away
It's all my fault, I'm all to blame
Things I wish I could have said
Things I wish I could have done
But it's too late now

What if I said I'll fight for you?
What if I said I needed you?
Would you change your mind?
Would you be by my side?

What if I said I'm there for you?
Go through hell and die for you
Would you change your mind?
Would you be by my side?

Oh, ah, ah
I've seen the errors of my ways
I just need you to forgive me, I just need you closer
I just need you here where I can hold you

What if I said I'll fight for you?
What if I said I needed you?
Would you change your mind?
Would you be by my side?

What if I said I'm there for you?
Go through hell and die for you
You should be by my side

You should be by my side
