

Don't Look Down

MitiS

Lately I'm finding it hard for me to trust
Feeling so close to the edge - am I enough?

Try to run
From all the things that I'm not
But every step
Led me straight to your arms

I've been lost a long time
Every second worth the wait

This love keeps taking us higher
Two hearts tight-roped on a wire
Are we falling or flying?
As gravity's rising
Let this love keep taking us higher
Just don't look down
Just don't look down

Don't look, look down
Don't look, look down
Don't look, look down
Don't look, look down

Visions - if this is a dream, don't wake me up
Colors, crashin' like waves, each time we touch

Far away
From all the things that we're not
Yea, I'd rather stay
Hidden safe in your arms

This love keeps taking us higher
Two hearts tight-roped on a wire
Are we falling or flying?
As gravity's rising
Let this love keep taking us higher
Just don't look down
Just don't look down
