

## Falling Into Mystery

MitiS

I'm okay never knowing where the road ends  
Let it go, no way that we can control it  
Some secrets blossom in the dark  
Risk it all to be with you in the unknown  
Could fall in love, fall apart maybe, who knows?  
We're meant to be right where we are

Wonder how our story goes  
But I'm giving in to hope  
Take my hand, we're running blind  
Got no plans, and I'm yours tonight

Who knows where we're gonna be?  
Just trust in never knowing where our love is gonna lead  
Falling into mystery  
Falling into mystery  
Falling into mystery  
Falling into mystery  
Falling into mystery

Falling into mystery  
Falling into mystery  
Falling into mystery

Take my hand, we're running blind  
Got no plans, and I'm yours tonight  
Tonight  
Who knows where we're gonna be?  
Just trust in never knowing where our love is gonna lead  
Falling into mystery  
Falling into mystery  
Falling into mystery  
Falling into mystery  
Falling into mystery

Knowing where our love is gonna lead  
Falling into mystery

Falling into mystery  
Falling into mystery

Falling into mystery
