

# Follow You

MitiS

If I don't follow you  
And run through that door  
Grab your hand  
And tell you darling please don't go  
Tell me will I regret  
All the things I could've said  
Would it be the end  
Would there be no turning back

But if I chase you to the street  
And kiss you on the mouth  
We're standing in the rain  
Could we work it out

Could we work it out  
Could we work it out  
Oh  
Could we work it out

Could we work it out  
Could we work it out

If I don't turn around  
And come back home  
Wrap you in my arms  
Hold you like I did before  
Tell me would I forget  
All the things I could've said  
Or will they live in my head  
With the memories I left

But if I chase you to the street  
And kiss you on the mouth  
We're standing in the rain  
Could we work it out

Could we work it out  
Could we work it out  
Oh  
Could we work it out

Could we work it out  
(Memories I left)  
Could we work it out  
Could we work it out
