

Gone

MitiS

I'm wide awake but fast asleep
What's left unsaid keeps following me
I toss and turn just to bite my tongue
Under my breath, test driving my lungs

Feel the weight on my heart, I've been lying
To myself, I'm a star slowly dying
I'm afraid it's too late but I'm trying
Yeah, I'm trying

What if we're too far gone, gone?

Remember when we used to say
We had it all just to throw it away
And now we're stuck in retrograde
Moving so fast, got nothing to say

Feel the weight on my heart, I've been lying
To myself, I'm a star slowly dying
I'm afraid it's too late but I'm trying
Yeah, I'm trying

What if we're too far gone, gone? (Gone)
Gone, gone
Maybe we lost it all, all
