

Hurt

MitiS

How could you stay like that
Oh what a waste it's been
When you could be there
I'm not here

So low and behold my truth
I've been feeling like I could lose
I said, all I needed was another lost day

So try me once
And bend me back again
I said, try me once
And you'll bend my back again

I'm breaking down, say you'll come back and hold me now
Wish I never let you
Hurt me did you like it

So try me once
And bend me back again
I said, try me once
And you'll bend my back again

I'm breaking down, say you'll come back and hold me now
Wish I never let you
Hurt me did you like it

So take back your words
I know that you tried
But can't erase what's all in my mind

So low and behold my truth
I don't need anything from you
I said, all I needed was another lost day

So try me once
And bend me back again
I said, try me once
And you'll bend my back again

I'm breaking down, say you'll come back and hold me now
Wish I never let you
Hurt me did you like it

So try me once
And bend me back again
I said, try me once
And you'll bend my back again

I'm breaking down, say you'll come back and hold me now
Wish I never let you
Hurt me did you like it

Come back and hold me now
Wish I never let you
Hurt me did you like it
