

# Try

MitiS

Closing time  
Still in the same bar where you said goodbye  
Yeah if could I would I would've pressed rewind  
But you and I  
It just went right

So I Build these walls  
Cause after losing I was scared to fall  
But I will climb them even though they're tall  
Been here before

When you gave all your love  
But it wasn't enough  
When you swear this time you're giving up  
You still gotta try  
You know you gotta try  
When you gave all you got like a million times  
We put the Hell in hello  
And the good in goodbye  
You gotta try  
You know you gotta try  
We gone we gone we gone try

You gotta try  
We gone we gone we gone try

When you gave all you got like a million times  
We put the Hell in hello  
And the good in goodbye  
You gotta try  
You know you gotta try  
We gone we gone we gone try

Try  
Try  
We gone try  
We gone try  
We gone we gone we gone try

Try  
Try  
We gone try  
We gone try  
We gone we gone we gone try

Don't look back  
There's nothing there but everything we had  
We found love but it all went bad  
I won't look back  
No no

When you gave all your love  
But it wasn't enough  
When you swear this time you're giving up  
You still gotta try  
You know you gotta try  
When you gave all you got like a million times

We put the Hell in hello  
And the good in goodbye  
You gotta try  
You know you gotta try  
We gone we gone we gone try

You gotta try  
We gone we gone we gone try

When you gave all you got like a million times  
We put the Hell in hello  
And the good in goodbye  
You gotta try  
You know you gotta try  
We gone we gone we gone try

Try  
You gotta try  
You know you gotta try  
We gone we gone we gone try

Try  
You gotta try  
You know you gotta try  
We gone we gone we gone try
