

# Wild One

MitiS

Do you wanna risk it all for someone like me?  
Even when the smoke clears, you're still here  
You saw me play with flames, I was a wild one

Play with flames, I was a wild one  
Play with flames, I was a wild one  
Risk it all for someone like me

And you know about me  
Tell me everything I need to calm me down  
You're the one that found me  
And for that I'll always hold you down  
Through the night you're mine  
I'ma hold you close  
Come alive in the fire  
I need you most

So tell me that I'm not alone  
You know all my flaws but you're down to weather the storm  
Through the night you're mine  
I'ma hold you close  
Come alive in the fire  
I need you most

Do you wanna risk it all for someone like me?  
Even when the smoke clears, you're still here  
You saw me play with flames, I was a wild one

And you know about me  
Tell me everything I need to calm me down  
You're the one that found me  
And for that I'll always hold you down  
Through the night you're mine  
I'ma hold you close  
Come alive in the fire  
I need you most

I need you most  
I need you most  
I need you most  
I need you most  
I need you most  
I need you most  
Come alive in the fire  
I need you most

Play with flames, I was a wild one  
Risk it all for someone like me

I need you most  
I need you most  
I need you most
