

# Wish You Were Here

MitiS

Lock on my heart and it's missing the key  
It's got your name on it, it's got your name on it  
Shadows on walls like you're talking to me  
It's got your name on it, it's got your name on it  
I saw a cloud as it drifts through the breeze  
And for a moment, thought that you were with me, yeah  
I wrote a letter that I thought you would read  
It had your name on it, it had your name on it

You'll never know, you'll never know what I  
I'm going through, just what I feel inside  
You'll never know, you'll never know, but I  
I  
You'll never know, you'll never know what I  
I'm going through, just what I feel inside  
You'll never know, you'll never know, but I

I wish you were here  
I shed too many tears  
I shed too many tears

You wrote your name on it, you lit some flames on it  
I dug a hole just so you could put a grave on it  
Then pour champagne on it to celebrate on it  
And I'm not trying to petty, I'm just being honest  
Light it up!

Streets are talking, yeah, I know where you've been  
It's got your name on it, it's got your name on it  
Russian roulette the way you make my head spin  
It's got your name on it, it's got your name on it  
I swore to you I'd wear my heart on my sleeve  
You ripped it up, now you're the reason it bleeds, yeah  
Hate to admit that you were all that I need  
It's got your name on it, it's got your name on it

You'll never know, you'll never know what I  
I'm going through, just what I feel inside  
You'll never know, you'll never know, but I  
I  
You'll never know, you'll never know what I  
I'm going through, just what I feel inside  
You'll never know, you'll never know, but I  
I

Name on it, it's got your name on it  
Name on it, it's got your name on it  
Name on it, it's got your name on it

I wish you were here  
I shed too many tears  
I shed too many tears

Name on it, it's got your name on it
