

# Without Me

MitiS

Clarity wasn't really our thing  
Calling me, so you could do the talking  
Late nights always at my place, yeah  
High off the shit you think would save ya  
Even though, I never really knew you  
Letting go, is something I just can't do  
How would it be if I knew better  
To just stay inside and wait for good weather

In the morning light  
It's no surprise  
That our colors faded  
Keep on fanning the flame  
To burn it all away  
End it how it we started

Cuz you look happier happier without me  
It doesn't matter where matter where I'll be  
But I could never figure it out  
I could never change your route, no  
Cuz you look happier happier without me  
Without me without me...  
Cuz you look happier happier without me

You look happier  
Never figure it out  
You look happier  
Never figure it out

I feel you now, only in my dreams  
Dunno how, it became so haunting  
Masking the pain cuz I'm still missing  
Even though I'm the only one losing  
Never close, but God I always tried to  
Let you know, giving more than I was meant to  
Too much has changed giving in like this  
But this melody's holding me captive

In the morning light  
It's no surprise  
That our colors faded  
Keep on fanning the flame  
To burn it all away  
End it how it we started

Cuz you look happier happier without me  
It doesn't matter where matter where I'll be  
But I could never figure it out  
I could never change your route, no  
Cuz you look happier happier without me  
Without me without me...  
Cuz you look happier happier without me

You look happier  
Never figure it out  
You look happier  
Never figure it out
