

# Carry Me Out

Mitski

At night  
On the roof top  
I untie my hair  
And watch from my plastic chair  
As my dark hair  
Unleashes the night

The scent of flowers  
Still in bloom from morning shower  
And I  
Say your name  
In hopes you'll hear it in the stars

And carry me out  
Carry me out

I drive when it rains  
At night, when it rains, I drive  
And the headlight spirits  
They lead me down the Styx  
So black it shines

And carry me out  
Carry me out

At night  
On the roof top  
I untie my hair  
And watch from my plastic chair  
As my dark hair  
Unleashes the night
