

# Cartoon Clouds

Miya Folick

Everyday something makes me angry  
Out of nowhere  
Lose my temper  
Can't remember what happened  
What are you laughing?

Convince me there's something to lose  
Describe it, what's purpose for you

Look out of the window all the clouds are cartoons  
And the sky is so blue  
What's the point in being gloomy  
When there's so much else to do  
Guilty when I'm not having fun  
Guilty when I get nothing done  
What's the point in being down about it  
Can I move on?

So uncertain bout insert whatever applies to you  
Nothing works today, can't recalibrate  
I've got shit attitude

Convince me there's something to lose

Look out of the window all the clouds are cartoons  
And the sky is so blue  
What's the point in being gloomy  
When there's so much else to do  
Guilty when I'm not having fun  
Guilty when I get nothing done  
What's the point in being down about it  
Can I move on?

I've been really feeling  
Like my doubts are getting bigger  
Like my luck is just a river  
That is starting to run dry  
But I don't need no luck to make you smile  
Baby can we sit here for a while  
Doesn't it feel good to feel good  
Doesn't it feel good to feel good

Feels good to feel good  
Feels good to feel good  
Feels good to feel good  
Feel good feel good
