

Come Over

MJ Lenderman

Why don't you come over
I think I like the things we've been doing
Makes me feel good at least for now
Until later
When the blues come back
And I call you back to help me

Would you be my vice
Would you be my vice

Whatever you are
Whatever you may do
I don't want to need you
There's an endless darkness
And I've found a light in losing my knife
There's an endless darkness
And I've found a light in losing my knife

And it feels so good
Lose my mind but I have not forgotten
Of my lost love and my shadow's gone
All these things all these things all these things

There's a go light waiting on me
I thought I found it
There's a go light waiting on me
I thought I seen it
There's a go light
And it's real
And it lasts a long time
