

# Happiness

MJ Lenderman

Seems the things I've wanted in my life  
I've never had  
So it's no surprise that livin' here  
Has only left me sad

Happiness where are you?  
I've searched so long for you  
Happiness what are you?  
I haven't got a clue  
Happiness why do you have to stay  
So far away  
From me

When I'm in despair  
And life has turned into a mess  
I know that I don't dare  
To end my search for happiness

Happiness where are you?  
I've searched so long for you  
Happiness what are you?  
I haven't got a clue  
Happiness why do you have to stay  
So far away  
From me

Happiness sometimes I think I see you from afar  
When I run to catch you, though  
That's just not where you are

Happiness where are you?  
I've searched so long for you  
Happiness what are you?  
I haven't got a clue  
Happiness why do you have to stay  
So far away  
From me

Happiness where are you?  
I'm gonna get to you  
Happiness what are you?  
I'll know before I'm through  
Happiness you know you just can't stay  
So far away  
From me
