

How Many Miles

Mk.gee

If you got something, go hide it (Ooh)
Lady Luck, don't you find that this town will leave you dying?
Are you rising up? I thought that I lost me
After all this time, I couldn't remember me

With every light and
With every same song
With all of your fire
Is how many miles away (Away)
How many miles away (Away)
With every night I'm wishing you, I know
How many miles away (Away)
(Is how many miles)

If you got something, go hide it
Lady Luck, pay no mind, this town will leave you crying
After all this time, I thought that I lost me
After rising up, I thought that I lost me

(Away)
(Away)
(Away)
(Away)
